Swiss Quality Training

Course registered in ICAO's aviation training directory :

Listed in the ICAO Aviation Training Directory

Member of :

Saint-Yan Air'e Academy

Training description

On request, **airtrace** can organize informational seminars on the topic of wildlife hazard prevention. Seminars last three days and end up with a participation certificate. These seminars are designed specifically for airport operators.

Acquired skills

The seminar's objective is to present wildlife hazard management and prevention issues in the airport environment context, as well as various means of passive and active prevention.

Professional prospects

This seminar allows airport operators to become aware of the importance of wildlife hazard prevention at airports, and to learn about means, methods and technique available to prevent and manage wildlife hazards.

Target audience

Airport operators

Attendees

Maximum 30 persons

Instructors

As detailed in training programme

Entrance conditions

None

Prerequisites

None

Obtained degree

Certificate of seminar completion

General and specific objectives of the course

- Increase awareness to wildlife hazard
- Present wildlife hazard prevention worldwide
- Inform on wildlife management organisation at Genève Aéroport
- Teach critical flight phases and aircrafts' parts most sensitive to impacts
- Display concrete cases of birdstrikes and damages caused
- Know responsibilities of airport operators and air controllers in terms of wildlife hazard prevention
- Present Wildlife Hazard Prevention Unit at Genève Aéroport
- Show didactic film ACI-Genève Aéroport
- Exchange with participants at seminar

Course content

• Introduction	0:15
• Wildlife hazard prevention in airports	0:20
• Critical flight phases and most damaged aircrafts' parts	0:10
• Responsibilities of airport operators and partners	1:00
• Wildlife situation in airports and ecological analysis	0:45
• Wildlife habitat management	0:30
• Documentary film on migration	0:30
• Birds' characteristics and identification criteria	1:00
• Birds' observation methods and identification guides	0:15
• Data collecting and registering	0:10
• Danger scale	0:10
• Passive prevention	1:00
• Active prevention	1:00
• Geographical and statistical data processing	0:45
• Update and audit of wildlife management	0:20
• How to manage wildlife	0:30
• Introduction to active prevention means	0:30
• Equipment handling precaution	0:30
• Computer programme « Airports Wildlife Hazard Management »	0:20
• Presentation of Genève Aéroport's Widlife hazard management Unit	0:45
• Film « Wildlife hazard prevention »	0:15

Duration

3 days	**11:00**

TEACHING METHODS

- Theoretical classes
- Didactic films
- Questions and experience exchanges

TEACHING MATERIAL

- PowerPoint presentations
- Handout from presentations
- Demonstration equipment

COURSE LOCATION

- Saint Yan Air'e Academie, France
- Genève Aéroport, Switzerland

COURSE COST

- Euros 1'000.— for the complete course
- Euros 200.— for the teaching material
- Euros 400.— for accomodation and meals

  Euros 1'600.—

PAYMENT CONDITIONS

- 10% at registration
- 50% before course
- 40% after course

WITHDRAWAL CONDITIONS

- Cancellation up to 30 days before the course, without a medical certificate : refund of the registration fee, minus a financial contribution of Euros 300.—.
- Cancellation up to 7 days before the course, without medical certificate : refund of the registration fee, minus a financial contribution of Euros 500.—.
